Big workflow improvements in a compact package

Designed for small / medium businesses and small workgroups, the SP C360SFNw, SP C360SNw and SP C361SFNw multifunction printers combine quality, speed and reliability with workflow capabilities. These cost effective, compact A4 colour MFPs can be placed where they are needed most on desktops or counters. The models come with standard WiFi and include productivity features such as double sided scanning and printing. The intuitive 7" touch panel interface is your gateway to both ease of use and a world of additional functionality.

- Multifunction workflow-enabled solution available at an attractively affordable price
- Compact design that fits neatly on a desk or counter, with full-front operation that enables further space saving
- Intuitive to use with colour touch-screen smart operation panel, and easy to install using the set-up wizard
- Includes a Single Pass Document Feeder with ID card copy/scan functionality for speedy double sided scanning
- Eco-friendly with low TEC value and low power consumption in sleep mode

Working smart has never been simpler

Speed and clarity meets light and compact

These LED MFPs deliver sharp, crisp print quality at a surprising speed, allowing a 1,200dpi file to print at the same speed as 600dpi. The underlying LED technology means they are also light and compact, which makes them suitable for a variety of business environments.

Seamless workflow integration

The SP C361SFNw is designed to both integrate with and advance existing document processes. Via the Ricoh Application Site and Ricoh Cloud Web Applications, you have access to a workflow platform that allows you to integrate your MFP functionality with your digital business processes.

Ready when you are

At 30cpm with a fast first print speed of 7.2 seconds, these MFPs are here to boost productivity. They also include a Single Pass Document Feeder with ID card copy/scan functionality for fast double-sided scanning. And with its NFC ID card reader, logging into the SP C361SFNw is only a swipe away.

Smart device printing on the move

Ready to print from a wide range of smart devices, these models come with support for Mopria, AirPrint and Google Cloud Print. Simply connect your device to the MFP via the embedded NFC tag and tap on WiFi Direct on the smart operation panel to begin data transmission.
